Starry Night Middle School Lesson Plans
In order of relevance

Elementary Cycles 2-3: Energy – Forms of Energy:

Forms of energy (e.g. mechanical, electrical, chemical, heat, solar, sound, nuclear)	F1-F3
Sources of energy (e.g. moving water, chemical reaction in a battery, sunlight)	F1-F3

Forces and Motion

Effect of gravitational attraction on an object	A3	B1-B2	C2	F3	G3	I2
Rotation of the Earth (e.g. day and night, visible motion of the Sun and the stars)	A1	A2	E1-E4			
The tides	A3					

Systems and interaction

System involving the sun, the Earth and the moon	A1-A5	B1-B2	C1-C4	D1-D3	F1-F3	I2
Solar system	B1-B2	C1-C4	D1-D3	F1-F3	I2	E4
The seasons	A2	E3	E4			
The stars and the galaxies (e.g. constellations)	G1-G3	H1-H2				
Technologies related to the Earth, the atmosphere and outer space (e.g. satellites, space station)	I1-I2	H1-H2	G1-G3	F2
